

Special tyres

Note: All rear wheels can be delivered in different combinations of pushrims or tyres.

Lightweight front wheels with fiber or aluminium wheel rims

Other accessories

BOA high pressure air pump
High pressure (145 PSI / 10 bar)
Lithium powered (Li-Ion 2000 mAh)
Air pump packed with features

Standard pushrims

Titanium, aluminium, stainless, high Friction

Special pushrims

Mobilex TopGrip and Spinerity TCG and TC

The **oval Mobilex Top-Grip pushrim** has an antislip insert and offers a better grip that makes the wheelchair more manoeuvrable and easier to handle on uneven terrain. The smooth black anodized aluminium sides minimize the frictional heat during braking and speeding.

The new **Spinerity TC (Tactical Control)** Stain-less pushrim is made from a revolutionary new and lightweight stainless steel. It has a rolled and textured surface that combines high grip with stability and hardness, especially for a stainless steel pushrim.

The **Spinerity TCG (Tactical Control Grip)** is a fully coated pushrim that stands out due to its unique coating surface and superior durability. The TCG redefines what a coated handrim can be, because it uses an exclusive non-slip, latex-free **neoprene** coating.

Ultralite

The Ultralite wheel is a very light and inexpensive wheel with a total weight of only 1120 grams including tyre, inner tube and pushrim. It is supplied with black aluminium hub, black hollow rim, black spokes and a silver coloured aluminium pushrim and 1" tyres. It is only available in 24" (see left picture).

Spinerge Offroad

The Spinerge Outdoor wheel package is designed with push efficiency and wheelchair performance in mind. By selecting the correct wheel size, you can minimize the change to ride height compared to your standard street wheels. Example - If your everyday wheels are 24" (540) with a 1" tyre, then by selecting the 22" (501) Outdoor Package the ride height could stay the same or be reduced by only ~ 1/4" (exact results can vary) (see left picture).

SLX Sport Lite Extreme

Get even more durability with 24 of Spinerge's 4mm patented PBO FIBER spokes in a wheel designed to perform in the most demanding contact sports. This wheel is responsive, offers extreme durability and is ideal for contact sport players. If you demand a lightweight quick accelerating and maneuverable wheel, the Sport Lite Extreme could be your answer. This wheel looks awesome, is stylish and allows you to focus on the game, not equipment failures (see left picture).

SPOX Everyday

Spinerge built its reputation as a market leader with the SPOX Everyday wheelchair wheel. They have been best seller for 15 years and are built to last. These wheels are the most rewarding upgrade you can make on a wheelchair and the SPOX Everyday wheels are the entry wheel with a budget in mind (see right picture).

Note

All Spinerge wheels are available in the sizes 24", 25", 26" and 28", also in combination with different spoke colours (see picture above).

Blade LXL

The Blade LXL is the lightest performance wheelchair wheel on the market. Developed as an incredibly stylish and aesthetically pleasing wheel with a clean design of its own, never sacrificing performance and durability. The Blade LXL features a 17 mm bead width rim, a new minimalistic hub design and of course the patented PBO bladed fiber spokes (see right picture).

The Blade LXL wheel is also available with carbon rim (Spinerge carbon blade)

Flexrim

The Spinerge FLEXRIM is a revolutionary product that is changing the way people use a wheelchair. With the urethane material holding the pushrim onto the rim, it allows the user to push with out ever touching the tyre. The ultra-light and extremely strong material allows the pushrim to flex in and give the wheel-chair user an extra inch or so when squeezing into very tight doorways. This product is unlike anything offered by any other company and a must have for everyday users of wheelchairs (see left picture).

Mobilex Offroad

The 24" Mobilex Offroad wheel is delivered complete with a black aluminium double-walled rim and black high flange hub with asymmetric mounting. It has a black aluminium handrim and black "mountain bike" studded tyres. It is only available in 24" (see left picture).

X-SLX Lite Extreme X-Laced

The latest design evolution from Spinerge that takes wheel performance to the next level. The Sport Lite Extreme SLX X-Laced with patented 4mm PBO FIBER spokes provides added torsional stiffness and a quicker push response. Developed for athletes wanting to turn up the dial a little more in wheelchair performance (see left picture).
